Career Objective

Experienced Flutter Developer with 2+ years of expertise in building high-performance, cross-platform mobile applications. Skilled in clean architecture, responsive UI, and integrating key features like push notifications, deep linking, Location and secure payments. Passionate about collaborating with innovative teams to deliver scalable, user-friendly solutions while continuously advancing my technical skills.

Skills

- Programming: Dart, C, C++
- Framework: Flutter
- Tools: VS Code, Figma, Git, GitHub
- Development: UI/UX Design, API Integration, State Management, Push Notification, Location, Deep Linking and Payment Integration
- Soft Skills: Communication, Team Collaboration, Problem Solving

Professional Experience

Junior Software Developer || October 2023 - Present
Synergy Interface Ltd.

Key Contributions:

- Developed and maintained **6+ production-grade Flutter applications** for both government and private sectors, ensuring reliability and performance at scale.
- Collaborated within **Agile development teams**, contributing to clean architecture, modular design, and responsive UIs across platforms.
- Delivered **feature enhancements, API integrations**, and performance optimizations based on evolving client requirements and real-world user feedback.

Projects:

MyKrishi – Smart Agriculture Investment Platform

- Designed role-specific mobile interfaces for Investors and Agents.
- Implemented **Deep Linking**, in-app chat, media uploads, and secure **payment integration(shurjoPay)** for seamless navigation and engagement.
- Enabled real-time project updates and enhanced transparency in agriculture investments through intuitive features and smooth UX.

Distributor Management System (DMS)

- Developed panel-based features for Distributors, SRs, and TSOs.
- Integrated **real-time location tracking** for SRs and improved performance monitoring.

Meghna Life Insurance – Customer App

- Designed user-friendly components for **policy management**, **premium payments**, and customer support.
- Implemented **payment gateway integration (bKash, Nagad)** with secure backend sync and ensured functional stability across devices.

Edex-365 (Educational App)

- Created Flutter-based interfaces for students and teachers.
- Implemented secure **payment modules** and **real-time notification systems**.
- Collaborated closely with backend team to maintain smooth API connectivity.

Nursery Management System (Govt. App)

- Developed a mobile app for streamlining nursery operations, including inventory and scheduling.
- Designed intuitive UIs in Flutter and integrated backend APIs for seamless data handling.
- Conducted end-to-end testing and debugging for quality assurance.

Meghna Life Insurance – Financial Advisor App

- Built modules for policy tracking, and reporting.
- Integrated secure APIs and resolved issues during QA cycles.

Academic Qualification

Bachelor of Science in Computer Science and Engineering

2018 – 2021(Held in 2023) || Dhaka City College (National University, Bangladesh) CGPA
3.18 out of 4.00

Professional Courses

- **Mobile Application Development - Flutter**
BASIS SEIP (September 2022 – December 2022)
Certificate
- **Professional English Communication Skill**
WSDA New Zealand(November 2022)
Certificate
- **CSE Fundamentals**
Phitron

Extra Curricular Activities

- Participation in **DCC CSE Digital Week 2020**
- Participation in **DCC Inter Dept. Programming Contest 2019**
